

Lightbeam Health Solutions and the ACOFP Announce Partnership for Population Health

IRVING, Texas – September 19, 2017 – Lightbeam Health Solutions, a leader in end-to-end Population Health Management solutions, announced today a partnership with the American College of Osteopathic Family Physicians (ACOFP) to provide population health technology solutions to their members. These solutions will support medical groups as they transform the way they deliver care in value-based payment models.

“We’re honored to partner with the ACOFP. They set the standard of education and vision for osteopathic family medicine,” said Pat Cline, CEO of Lightbeam Health Solutions. “Both organizations are aligned in the goals of promoting healthcare excellence, improving quality and managing costs.”

“Lightbeam is for anyone who has to meet CMS Quality Payment Program requirements,” said Rodney Wiseman, DO, FCOFP, *dist.*, President of the ACOFP. “Whether you’re a solo practitioner, large hospital or ACO, Lightbeam allows you to manage complex patient populations easily and accurately in order to improve outcomes and patient satisfaction.”

Lightbeam’s Population Health Management platform offers the following integrated solutions:

- Enterprise Data Warehouse
- Risk Stratification
- Machine Learning
- Analytics
- Provider Engagement
- Quality Measure Optimization
- Care Management
- Cohort Builder
- Patient Engagement
- HCC Correct Coding
- GPRO Reporting

Through the partnership, ACOFP’s solo, rural and small groups, as well as ACOs and Hospital Systems will have access to the Lightbeam Platform at a reduced price.

About Lightbeam Health Solutions

Lightbeam Health Solutions delivers a revolutionary model for managing patient populations and associated risk. Lightbeam's vision is to bring health data into the light through the use of analytics and to provide the insight and capabilities healthcare clients need to ensure patients receive the right care at the right time. Lightbeam's platform facilitates end-to-end population health management for ACOs, payers, provider groups, health systems and other healthcare organizations aspiring to provide superior care at a lower cost.
