

Lightbeam Health Solutions Ranks Among the Fastest-Growing Private Companies - 2018 Inc. 5000 List

Inc. Magazine unveils its 37th annual list of America's fastest-growing private companies

IRVING, TX – August 16, 2018 – With three-year sales growth of 385%, Inc. magazine ranked Lightbeam Health Solutions, a leader in end-to-end population health management solutions and services, among the fastest-growing private companies in its 37th annual Inc. 5000.

The prestigious list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses. Microsoft, Dell, Domino's Pizza, Pandora, Timberland, LinkedIn, Yelp, Zillow, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

“Over the last half decade, one of the biggest challenges we have seen healthcare face is the ability to provide full transparency across the patient, provider, and payer relationship,” said Pat Cline, CEO of Lightbeam Health Solutions. “This is where Lightbeam's value-based care solutions and services come in. We understand provider workflow challenges and how to provide the right data, in the right place, at the right time, ultimately driving far better outcomes and compliance at a much lower cost.”

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at www.inc.com/inc5000.

“If your company is on the Inc. 5000, it's unparalleled recognition of your years of hard work and sacrifice,” said Inc. Editor in Chief, James Ledbetter. “The lines of business may come and go or come and stay. What doesn't change is the way entrepreneurs create and accelerate the forces that shape our lives.”

The annual Inc. 5000 event honoring the companies on the list will be held October 17 to 19, 2018, at the JW Marriott San Antonio Hill Country Resort, in San Antonio, Texas. Speakers will include some of the greatest innovators and business leaders of our generation.
