

Enabling provider enterprises deliver better, safer and more efficient care

IKS HEALTH  
SUCCESS STORY

# Transforming Physician Productivity and Risk Capture

A **physician-led multi speciality physician group** in Northwestern Texas with over 40 clinics, providing care to over 300,000 patients in the region. The group includes other ancillary settings including imaging centres and cancer treatment centers. It is a part of one of the largest Health systems in the nation built around patient-centric care.

250+ PROVIDERS

40 PRACTICES

20 SPECIALTIES

## KEY CHALLENGES

**Physician Burnout** due to increasing clinical documentation burden

Potential for improvement in **Physician Productivity post EHR Migration** and documentation optimization leading to more accurate coding

# IKS SCRIBBLE

## Clinical Documentation Solution that improves Physician productivity and enables better risk capture

Identified the right Providers to adopt the solution based on practice patterns and willingness to adapt solution

Worked with Providers and Practice Management to train Physicians on leveraging SCRIBBLE for personalized practice goals

Provider starts the visit using the SCRIBBLE application. Conducts the visit as usual, engaging the patient more directly without worrying about the encounter notes.

Clinically accurate charts created by Physicians are delivered to the client provider the next morning for review

Ongoing engagement with individual Physicians on their notes and practice with a dedicated **Virtual Physician Partner**

### IMPACT DELIVERED

**4.74%**

**Increase in HCC score / patient with Scribble usage**

**0.25%**

**Increase in wRVUs / MD / Month with Scribble**
