

Enabling provider enterprises deliver better, safer & more efficient care

IKS HEALTH  
SUCCESS STORY

# Enabling the journey from paper to Discrete Digital Data

Privia Medical Group North Texas is a large Physician-led multispecialty group focused on helping providers practice independently while providing them with the tools to improve the quality & efficiency of care delivery.

## KEY CHALLENGES

**Lack of standardization** in sorting incoming clinical documents and abstracting data across practices.  
**Lack of bandwidth** for Clinic Staff to manage the incoming documents  
**Missing out on capturing Quality of Care metrics**, impacting performance in P4P contracts

# IKS STACKS

## Managing the Clinical Document Journey

Create a rule-book to organize the documents in the EHR including:

- Naming conventions
- Filing locations
- Discrete data abstraction for Quality Measures

Review incoming documents for Triaging & Indexing

Clinically relevant information abstracted from document images into discrete data fields in EHR

Clinical Quality Measures and Trackers populated to meet MA / ACO / MSSP / other reporting requirements

- Tasking specific documents that need provider sign-off or action
- Incoming referrals are triaged & highlighted to clinic for further action

### IMPACT DELIVERED

#### TIME SAVED

**73,000+ HOURS** Provider Time

**583,000+ HOURS** Clinic Time Saved

Filing, Abstracting & Searching Medical Records

#### QUALITY METRICS CAPTURE IMPROVEMENT

**40%** Influenza Vaccine

**42%** Breast Cancer Screening

**34%** Colorectal Cancer Screening

**15%** Pneumococcal Vaccine

**13.5 Million** Pages filed in 5 years of partnership with IKS

**SAVE 1x MEDICAL ASSISTANT'S TIME FOR EVERY 4 PROVIDERS**
