

Lightbeam to Demonstrate Scalable Staffing and Population Health Enablement Solutions at HIMSS23 in Chicago, IL

Join Lightbeam at booth #3401 to learn how to provide your staff with the tools and resources required to improve patient lives, expand care manager capacity, and lower costs

IRVING, TX – April 17, 2023 – [Lightbeam Health Solutions](#), the leader in population health enablement solutions and services, today announces it will be an exhibiting sponsor of [HIMSS23](#), taking place April 17-21 at the McCormick Place Convention Center in Chicago, IL. Subject matter experts will be onsite at booth #3401 to demonstrate the company's newest product innovations and services, provide no-cost health equity reports powered by [Radian™](#), and discuss the latest developments in population health.

Lightbeam's solution suite is the leading population health system that allows clients to accurately assess risk, identify modifiable outcomes, and deploy deviceless patient monitoring and outreach across 30+ condition-specific programs.

Since last year's HIMSS Global Health Conference, Lightbeam has reached many milestones, including:

- Helped clients generate over \$2B in total Medicare Shared Savings Program savings
- Powered an estimated \$4B in generated savings across all client-partners engaged in value-based care contracts
- Disrupted the market by offering a no-cost health equity solution informed by prescriptive AI
- Enabled 170,000+ providers to monitor patients, manage cohorts, and track performance
- Generated 52% AWV completion rates for clients engaged in MSSP and Medicare Advantage (MA) contracts
- Ranked in *The Financial Times's* The Americas' Fastest Growing Companies 2023 List
- Rated Highest Client Satisfaction for End-to-End Population Health Solutions in 2023 by Black Book Research

"The healthcare industry continues to evolve and grow in new and exciting ways, and Lightbeam has innovated its products, tools, and services to scale with that growth," says Dr. Kent Locklear, Chief Medical Officer of Lightbeam Health Solutions. "From expanding care team capacity through Deviceless Remote Patient Monitoring® and clinical services to enabling more precise risk stratification with prescriptive AI, we continue to demonstrate our drive to provide organizations with the solutions needed to succeed in value-based care. We can't wait to share our knowledge and newest developments with attendees at the HIMSS23 Global Health Conference."

Jessica Scruton, BSN, RN, CCM-R, Lightbeam's VP of Clinical Services, will present the poster, "Building an Outcomes-Based Program for Highly Effective Care Management," at the [Nursing Informatics Forum](#) on Monday, April 17 from 8:00 am – 4:30 pm in room S406A. Jessica will also be present at the Lightbeam booth throughout the conference to share the latest capabilities and achievements of Lightbeam Clinical Services (LCS).
