

Build Strong Payer-Provider Alignment with **Provider Engagement Solutions**

Create trust & transparency across your network with solutions that empower providers to deliver the right care to the right member at the right time.

Lightbeam's Provider Engagement solution suite equips providers with:

Real-Time Provider Insight Dashboards

Bi-Directional EHR Integration

Actionable Insights at the Point of Care

Improved Outcomes by Allowing Providers to Perform Top of License

Provider Bonus Visibility by Payer

Ability to View Peer to Peer Comparisons

Value-Based Care Attribution Models

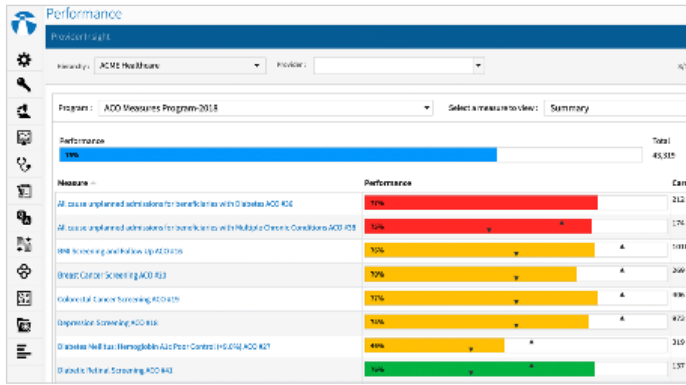

Ability to Drill Down by Patient to View List of Open Care Gaps

Built with the sophisticated enterprise in mind, the Lightbeam platform provides a comprehensive view of performance across the organization, allowing payers to drill down into metrics by location, contract, or individual provider or member. Scorecards, alerts, and reports can be pushed to providers on a timed cadence of your choosing, ensuring transparency and alignment.

Lightbeam transforms insights into outcomes.
